EDUCATION

Alabama A&M University | Normal, AL | Expected May 2027

Bachelor of Science in Computer Science — General CS Concentration | GPA: 3.96/4.00

Relevant Coursework: Data Structures, Advanced Programming, Python, C++, Java, Discrete Structures, Digital Logic Design, Probability & Statistics

WORK EXPERIENCE

Spring 2026 – Present

Peer Tutor | Tutorial Assistance Network

Huntsville, AL

- Delivered one-on-one and group tutoring sessions in Python and C++ for undergraduate students, reinforcing core problem-solving and programming concepts.
- Maintained a 90%+ student satisfaction rate and 50%+ session return rate through consistent follow-ups and coordinated support with fellow tutors.

Spring 2025

Undergraduate Research Assistant | College of Engineering and Technology, AAMU

Huntsville, AL

- Developed interactive 3D human models for medical applications using Unreal Engine and Meta Quest 3 VR headsets, focused on muscle analysis and pressure monitoring for wheelchair patients.
- Evaluated data integrity and system reliability within a VR-based medical simulation environment.

PROJECT EXPERIENCE

MediLink Africa | *Next.js, REST APIs, Cloud Databases*

- Built an end-to-end healthcare referral platform with a scalable, secure frontend and optimized state management.

Reduced referral processing time by 30% and improved task completion speed by 25% through efficient API integration and UI design.

Event Planner Manager | *Node.js, REST APIs*

- Built a full-featured event management system supporting date, location, guest count, and budget tracking via REST API.
- Developed vendor browsing, booking, and status management features alongside in-app messaging for planner–vendor coordination.

AI Chatbot Assistant | *Python, LLM APIs, NLP*

- Built a conversational chatbot using hosted LLM APIs with prompt engineering, server-side API handling, and secure key management.
- Integrated an optional web search for real-time, grounded responses and served a lightweight browser-based UI from the backend.

HONORS & LEADERSHIP

Honors Program Scholar • Presidential Scholar • Dean's List Recipient • STEM Day Presentation Certificate • Codepath TIP101 Certificate • Leland Product Management Certificate • PSM I Scrum Master Certificate

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, Java

Web: HTML, CSS, Next.js, Node.js, React

Tools & Frameworks: TensorFlow, Git/GitHub, Unreal Engine

Methodologies: Agile, Scrum (PSM I Certified)
